TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause—liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

It is a fact! Brown's Iron Bitters, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old druggists and in every particular reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey vilely concocted for use in local opinion countries. Such is not the case with Brown's Iron Bitters. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00.

THOSE WOMEN FOLK.

H w Hard-Headed Men Estimate Some Things Which They Don't Understand.

Anybody who has led a domestic life knows how common such things as the backache and pains in the chest are among the women who do the work. Often, and perhaps generally, the distresses are borne without much complaint. The women get about, and the machinery of the house goes on. Beyond this, these coarse-grained animals whom New England women call "the men folks," seldom look. So long as their wives or daughters are not actually in bed, under the doctor's care, the average thick-skinned husband and father gives the subject no attention. At the same time the poor household drudges, who deserve a better fate, creep around, broom or utensils in hand, up stairs, down stairs and out of doors, doing that woman's work which "is never done."

Losses of loved wives and fair girls—losses whose suddenness and unexpectedness astonish those wooden-pated husbands and fathers—fall, seemingly out of a clear sky, and form the logical sequel to the story of neglect.

Now, you men who stand at the heads of ten thousand such homes, allow us to drop a word in your receptive ears. If these women of yours are worth having, they are worth saving. That backache—that pain in the chest! What are they but indications of some organic trouble of the kidneys, the heart or the lungs? End it at once by the application of BENSON'S CAPSIC POROUS PLASTER. It will soothe that nervous distress, drive away that pain, banish that dull, weary backache, give new strength to the body and fresh hope to the heart. No other plaster will do this. The Benson's plaster, however, is not made to sell, but to heal. It is a remedy which never yet broke its promise and never will.

ANTI-MONOPOLISTS.

Is there a single anti-monopolist in the world? asks the Colusa Sun. Is there a gatherer of old rags, hoop irons, etc., who would not like to have a monopoly of the business? Is there a merchant who would not like to have a clear field? Is there a farmer who would not like to hold plenty of wheat when the market is short. Anti-monopoly is not the word for those who wish to control certain corporations. Anti-corporations, or anti-railroad would have a meaning, but anti-monopoly has no meaning. It is sailing under false colors. A man may have a monopoly of wheat or wool, or land, or merchandise of any kind, and still be a strong believer in the right and in the policy of regulating common carriers, but an anti-monopolist he could not be.

EDITORIAL NOTES.

The exports and imports of a country for a series of years are a pretty good indication of its financial condition. The excess of exports over imports for this country during the period from 1877 to 1882 inclusive was \$1,128,927,706. This is more than one-half the public debt, and shows great prosperity. The great demand for the products of this country in over-populated Europe is sure to furnish a market at remunerative prices for all our surplus. In 1871 our exports aggregated \$902,000,000. When the figures for last year are given they will show an increase; and for the present year the estimates are away beyond anything yet accomplished.

The Illinois high-licence bill passed the Senate yesterday by a vote of 30 to 20, the Republicans supporting and the Democrats opposing the measure. Governor Hamilton signed the bill a few moments after its passage. The new law fixes the whisky license at \$500 and the beer license at \$150 annually, over the entire State, including all cities and towns. The new law goes into effect on the 1st of July next.

Major Nickerson has disappeared, Captain Walker of the Third Cavalry is wandering somewhere in Mexico, Major Morrow has quietly dropped out of sight with his duplicated pay accounts and Paymaster Wasson is the only one of the several officers lately mentioned in the press who seems to be corralled by a court-martial.

The civil service rules, according to the latest report, will rule out women clerks from the departments. A heart-rending wail from Phoebe Cousins and Mrs. Gougar will soon be floating on the western breezes.

Governor Butler says the refusal of the Harvard college faculty to confer upon him the degree of Doctor of Laws will make 10,000 votes for him next Fall.

Two Men Engage in a Very Queer Business.

OMAHA, June 15.
Special Postoffice Inspector John B. Furay of this city has arrested at Lincoln two young men—Wm. A. Hill, apprentice to a dentist, and John B. Sweet, a lawyer—for using the mails to circulate a receipt for the prevention of conception, under the name of J. H. Leroy. They sent out circulars headed "Great Secret Revealed," offering the receipt with explanatory pictures for two dollars. It was a huge sell, there being no receipt and the pictures being harmless and humorous. They were detected by decoy letters at the instance of a society for the prevention of vice. They were held for trial, and in default of bail are in jail.

A Catholic Plenary Council to Assemble in America.

PEORIA, June 15.
In an interview with Bishop Spalding, the distinguished prelate corroborated the statement that the Archbishops of the United States have been commanded to assemble at Rome next October to arrange a programme for a plenary council to be held in America. The business of the council will pertain to ecclesiastical offices in this country, not involving Irish affairs. It is three months since Bishop Spalding left Rome, and the above was the pontifical intention at the time of his departure.

The body of Mrs. Cornelia Walberg, wife of Simon Walberg, a mining broker of New York, arrived at 11 o'clock this morning, and was taken immediately to the crematory and placed in a retort. When the ashes are lifted they will be sent to her late residence and put in an urn and placed on the parlor mantle.

Where is the Major?

Terms of Peace Agreed Upon Between Chili and Peru.

LIMA, June 16.
The following particulars relative to the terms of peace published here are taken from letters stolen from a special courier en route to General Iglesias: Chili will not forfeit the decrees about guano and saltpetre, issued in 1882; that the net profits of 100,000 tons, deducting expense, be equally divided between Chilean and Peruvian bondholders—these profits are only to come out of islands now worked, as future mines found in annexed territories belong exclusively to Chili, who can dispose of such newly discovered mines at will. Chili does not hold herself responsible for any indebtedness of Peru; Chili holds the sovereignty of Lobos Islands until sufficient is guaranteed to fulfill the sale of 1,000,000 tons; when the treaty is ratified Chili turns over to Peru 50 per cent. of the net proceeds from Lobos Islands. Commercial relations and indemnity to Chilean citizens will be discussed afterwards.

American and English Riflemen

LONDON, June 16.
The National Rifle Association has decided not to allow the American team to use a screw wind-gauge in competitions at Wimbledon, except in the international match. The Volunteer Service Gazette regrets this decision, and thinks if the Americans are beaten they will be able to claim they were handicapped because not allowed, like English riflemen, to use in preliminary contests exactly the same appliances they used in the match. However, says the Gazette, there are not wanting signs that the Americans may give the English a sound beating.

The disturbing rattle of the truck is heard all day long at A. Lindley & Co.'s store. Half a dozen men are busy hauling goods that block the sidewalk and interfere with travel. Constable Nash's attention is called to this. Pedestrians have rights that even live grocerymen ought to respect.

A returned Tourist who has Seen The Tahoe Monster.

Charley Thrall has returned from a trip to Lake Tahoe, where he captured lots of trout and met with strange adventures. He was out in a boat one day and ran across the big fish that has created so much talk. He says it is a savage monster, a sort of cross between a ground-shark and a ferry boat. It chased the steamer the other day and chewed off one of the flanges of her propeller. It is probable that a harpoon-gun will be employed to annihilate the monster.

Moonlight Dance at the Riverside Picnic Grounds.

There will be a fine opportunity for amusement this evening at the Riverside picnic grounds. A dance by moonlight is a novelty. There will be good music, and those who will take anybody who wants to go. It will doubtless be a pleasant affair.

EVERGREEN MILLET.

One Instance in Which It Has Been Successful.

A sample stalk of the much talked of Arabian millet has been received at the Susanville Advocate office from Long valley. It was grown on Samuel Cushman's ranch in the north end of the valley. This gentleman seems to have succeeded in his experiment of testing the drought proof qualities of the grass, for he has an acre of it growing finely, and now eight or nine inches in height, which has been watered only by the rains. The seed was sown upon land where no other grain would grow, and the result in this instance is certainly highly satisfactory. Where one succeeds, others will; although there has apparently been no great success in starting the new grass among our farmers generally. Many acres of land now barren will, two or three years hence, be yielding bountiful crops of the Arabian millet.

NICKEL.

A Short Answer to an Inquiring Correspondent.

A prospector who thinks he has struck a bonanza in the way of nickel, writes the GAZETTE to know the value of the metal, and whether it is produced in any great quantity in this country. The production of nickel in the United States is not very extensive. We know of but one mine now in operation, which is situated at Lancaster, Pennsylvania. It is worked to a depth of less than 300 feet, and has been worked for 17 years. At the time this mine was first opened nickel was but little used, and its value correspondingly low. Since then, however, the metal has come into use for a multitude of purposes, and the demand for it is rapidly increasing. The refined metal, at the present time, is worth \$3 a pound.

Ill health generally comes from lack of the proper life forces in the blood. To restore the blood to a healthy state use Brown's Iron Bitters.

GIVE THEM A CHANCE.

A Movement to Close Stores Early in the Evening.

After the first of July, when both the east and west-bound trains will arrive in the morning, the evenings will be very dull. There will be no excitement at the postoffice, and Charley Thrall's train will make the only noise that will break the monotony of the evening. In view of this fact, the clerks and employees of business houses propose to make a move toward closing stores early in the evening—about 7 or half-past. It is a good proposition, and if all will join in there will be little trouble in effecting the change. Nasby says he will start the ball rolling. He wants more time to call upon his lady friends.

A Vigorous Old Lady.

The Genoa Courier says: Mrs. Jane Hargrove, the aged mother of Sheriff J. T. Williams, Dr. G. W. Williams, Mr. A. S. Williams and Mrs. J. P. Pettigrew of East Fork, arrived in Genoa, on a visit to her children, last Saturday afternoon. She thinks of remaining permanently. Her age is 77 years, and the old lady came through all alone and safely from Milton, Iowa, to Reno, where she was met by Sheriff Williams. The lady's arrival was the cause of a happy family reunion.

M. of P. Election.

Amity Lodge, No. 8, K. of P., last night elected the following officers for the ensuing term: C. C., W. H. McInnis; V. G., L. Jamison; P., W. H. Noyes; M. of E., D. McKay; M. of F., W. W. Cook; K. of B. & S., W. L. Bechtel; Trustee, A. Dawson; Representatives Grand Lodge, N. W. Hoff, J. F. Meyers, W. D. Phillips, A. Dawson, C. C. Powning, H. J. Thyes, J. T. Davis and J. F. Aitken.

Kicked in the face.

Last Tuesday evening, Jack Miller, who works on Mrs. Clayton's ranch, near Genoa, met with a painful accident. He was untying a horse that was tied to a stake out in the field, when it kicked him in the face twice, one of the horse's feet striking him just over the left eye, and also on the left jaw, knocking him senseless for some time, and also badly bruising him up.

Miss Clara Cossitt's friends are trying to secure for her an appointment in the Mint. She is a very deserving young lady, and the GAZETTE would be glad to learn of her success.

Captain W. F. Tibbits, agent for the Denver and Rio Grande Railroad Company, Denver, Col., is in Reno to-day. He is making a tour of this coast in the interest of his company, and finds the rival of the U. P. has many warm friends wherever he goes. Captain Tibbits says the owners of the road are undecided as to the future, but he has no doubt but what they will build many miles of new line the coming year.

A Hard Struggle.

Mrs. Carrie Mayo Glancy, a lady well known in Carson and Reno, died at Carson at 2 o'clock yesterday, after a fearful death struggle that lasted nearly fourteen hours. The deceased had been sick for over a month, suffering greatly, and but for expressed determination not to die she would long since have succumbed to the inevitable fate. Mrs. Glancy was a bright, handsome lady whose appearance indicated a long lease of life. She was born in Carroll, Penobscott county, Maine, in 1862, and was married in Carson about one year ago.

A Sign of Dull times.

The general impression exists among the people that if every kind of wickedness prevails in any particular locality it is a sign of good times and great business prosperity. If it be true, there is a great commercial depression in Reno. The police officers say the town is outrageously quiet. There is nothing to pick up, not even a petty larcenist or a simple drunk. Fees will be very short this month.

A BENEDICT CANTICLE.

Of all the insidious temptations insidious Contrived by the Devil to put men down, There is none more devious, Seductive, abasive, Than the snare to a man with his wife out of town.

He feels such delightfulness, Stay-out-all-nightfulness, Shail-I-get-tightfulness—I own it with pain— A bachelor rakishness, What-will-you-take?-i-hness, Next-day's-headacheishness, None can explain.

The wife may be beautiful, Tender and dutiful— 'Tis not that her absence should cause him delight, But the cursed opportunity, Boleful immaturity, Scatters his scruples as day scatters night.

He recalls pranks erratic, In memories evasive, As wicked he feels as the bald heads, in row, Who watch the stage dancers, With bold, sinful glances, And witness with awe the wild bacchanal show.

He's possessed with a feelfulness— World-flesh-and-devilfulness— A make-the-stars-reelfulness— Who could resist? And he longs for the poker chips, For winks that the joker tips, For rings from the smoker's lips, Like a blue mist.

With a take-every-trickishness, Full as a tickleishness, I'll-be-a-brickishness, Though conscience frown; With a north-jet-us-stead-someness, Kick-up-couchishness, There's always a devil-someness When one's wife's out of town.

LASSEN ITEMS.

Called from the Columns of Our Susanville Exchange.

The following are taken from the Advocate of June 14:

The town is quiet. About all that varies the monotony now-a-days is and occasional "dead drunk" sheep-herder.

Fish are plentiful in Susan river, and our fisherman can be seen passing almost daily with fine strings of the finny species.

The country around Big and Mountain Meadows is literally alive with sheep from the lower country. A large number of the owners of these bands of sheep were in town this week purchasing supplies for their camps.

The family of Dave Ridenour is all down with measles. Mrs. Ridenour is said to be in a dangerous condition.

In a quarrel over some water last Tuesday, near Johnstonville, Wm. Sifford struck Ben Leavitt on the head with a shovel, inflicting an ugly wound. It is not considered fatal.

Church Notice.

The morning service at the Congregational Church, Rev. A. B. Palmer, pastor, will commence at 11 o'clock. Sunday school at 12:15. Instead of the usual preaching services of the evening there will be a Sunday school concert and praise service occupying the whole time. A cordial invitation to all.

A Dastardly Act.

Some miserable sneak has been throwing giant powder cartridges in the Reno Water Company's reservoir, north of the seminary, for the purpose of killing the fish. Alvaro Evans found over 30 trout and catfish floating on the surface of the water this morning.

Waited for the Wagon.

Meylet's team, having waited here three days for a wagon from below, got it this morning, and rolled out.

Sparkling with the purest

flavor, delicately, yet richly flavored, cool and refreshing. Queen's soda water commends itself to all.

NEW TO-DAY.

Superintendent Jerry Whited of the Central Pacific offers a reward of \$50 for information leading to the arrest and conviction of the parties who tampered with the switch at Rose Creek on June 13.
